Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 11-13, 26, 27, 29 and 32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hirakata et al (6,465,268). The reference to Hirakata teaches the basic semiconductor device having a pixel portion and a leveling film (301) that may be formed in the pixel portion. See, for example, the FIG. 6 embodiment and the accompanying discussion in the specification.

In addition, this reference teaches the use of a column shaped spacer which has a bottom surface area which is larger than the top area. See, for example, FIG. 8C and the accompanying discussion.

The remaining claimed structural features would also be within the scope of this reference.

Allowable Subject Matter

Claims 1-10, 14-17, 19-23, 25, 30 and 31 are allowed. The Hirakata reference fails to teach the overall structure of these claims, including but not limited to the use of a storage capacitor in the pixel portion.
